1321-188

SAFETY+ Work Jacket

Size: XS-S-M-L-XL-2XL-3XL-4XL-5XL-6XL

Shell fabric: 32% Modacrylic / 30% Polyester / 20% Aramid / 17% Viscose / 1% Antistatic fibre, 320 g/m², FR

Wash:

The ENGEL work jacket is designed for optimal comfort and protection when working in dangerous working conditions. Ideal for electricians, welders and petrochemical workers, for example, thanks to its antistatic and flame-retardant material that remains flame retardant after washing. It protects the wearer from arc flash, chemicals, molten metal splashes and flames, among other hazards. Achieve full protection that meets clothing class 3 by combining this practical work jacket with work trousers (item no. 2321-188 or 2322-188) or bib overalls (3321-188). The work jacket also has certified reflectors and is made in fluorescent colours, for increased visibility. The work jacket is unlined and made of strong, durable material, making it perfect for cool and mild days. The fit is roomy and comfortable, which is ideal for when you are active at work.
