Wash:

The softshell in the ENGEL SAFETY+ collection is ideal for days with changing weather, where thick insulation is not required. It offers a good balance between optimal fit, flexible movement and effective protection against both wind and rain. Every detail is optimised to protect, with a high collar and a drawstring at the bottom as well as a well-thought-through design that does not allow embers to adhere to the jacket. Made from antistatic and flame-retardant material, the SAFETY+ softshell jacket protects from arc flash. It is also possible to attach a gas alarm to the front of the softshell jacket. This softshell jacket protects you from shock, fire and chemicals whilst also offering a comfortable fit that keeps you dry and warm.

- High collar for neck protection
- Straps attach gas alarm at the front
- External pockets with zipper
- D-ring for ID card in right pocket
- Adjustable cuffs with Velcro closure
- Adjustable drawstring at the bottom keeps the wind out
- Smart, functional pocket details and seams to prevent embers from getting lodged
- Inherent flame-retardant fabric, even after washing
- ELIM 8,1 cal/cm²
