Shell fabric: 60% Modacrylic / 39% Cotton / 1% Antistatic fibre, 300 g/m², FR

Wash:

The ENGEL SAFETY+ fleece jacket, with flame retardant and antistatic properties, keeps you protected on cool days. The fit is relaxed with plenty of room for movement and elasticated wrists ensure that the sleeves fit well and prevent slippage. The design is well considered, preventing embers from getting lodged in the jacket. The soft fleece material makes the jacket warm and ideal for cool working environments. The jacket also protects against arc flash and flames. A gas alarm can also be attached to the front of the jacket using the straps.

- High collar keeps you extra warm and protectioned
- Zipper in front
- Straps to attach gas alarm at the front
- External pockets with zipper
- D-ring for ID card in right pocket
- Sleeves with elastic at the wrists
- Cord at the bottom to keep the wind out
- Smart, functional pocket details and seams to prevent embers from getting lodged
- Inherent flame-retardant fabric, even after washing
- Flame-retardant reflectors
