Wash:

The ENGEL SAFETY+ winter jacket is one of our safest and most visible winter jackets – for bitterly cold days with falling snow and the need for extra visibility and protection. The winter jacket is made of durable and tear-resistant material, which is also flame retardant and antistatic. This means that you are optimally protected against everything from arc flash, chemicals, flames, sparks, and radiant heat to splashes of molten metal. This winter jacket comes in fluorescent hi-vis colours with prominent reflectors, ensuring the best possible visibility for when darkness falls, for example. With optimal protection, this jacket meets the requirements for clothing class 3. A safe winter jacket with a very comfortable fit, it has ribbing at the cuffs and soft fleece in the collar, which protects you from cold wind and rain. The material also ensures that you are always dry underneath, reg

- Soft fleeced lined collar for extra comfort
- Comfortable ribbed collar and cuffs for effective wind protection
- Detachable hood
- Straps to attach gas alarm at the front
- Flame-retardant reflectors
- Inherent flame-retardant fabric, even after washing
