Wash:

The winter jacket in the ENGEL SAFETY+ collection is a warm, windproof and waterproof safety jacket that is perfect for the coldest conditions and working environments that require extra protection. The jacket is made of a tear-resistant and extremely durable material, which is also flame retardant and antistatic. It guarantees you full protection against arc flash, molten metal, flames and chemicals. Smart straps on the front are available to attach a gas alarm. Concealed zippers and buttons are ideal for those who work with delicate components, preventing them from being scratched or marked. Featuring a high neck with a soft fleece lining, ribbing at the cuffs and a snow skirt at the bottom for extra protection against snow and wind, this winter jacket is designed to keep you completely dry and warm.

- Soft fleece-lined collar for comfort
- Comfortable ribbed collar and cuffs to protect against wind
- Detachable hood
- Straps to attach gas alarm at the front
- Inherent flame-retardant fabric, even after washing
- Taped seams to keep water out
- Extended back for warmth
- Concealed zipper with press studs at front
- D-ring for ID card in right pocket
- Snow skirt at the bottom to keep cold and snow out
- Smart, functional pocket details and pleats to prevent embers from getting lodged
- Use together with trousers or overalls with same or higher insulation classification, to attain protection against cold
- ELIM 24,0 cal/cm²
