Shell fabric: 96% Polyester (recycled) / 4% Elastane, 295 g/m²

Wash: 60

These ENGEL SAFETY trousers combine flexibility, durability and comfort for demanding workdays. The 4-way stretch fabric, elastic at the back of the waist and ergonomically shaped knees ensure a secure fit and full freedom of movement. Practical functionality comes from multiple pockets, including a reinforced ruler pocket, along with buttons for quick attachment of hanging pockets and a D-ring for easy access to essentials. Reinforced knee pockets with Velcro closure and two adjustment options allow for optimal knee pad positioning. Hidden button closure helps prevent scratches, while segmented reflective strips improve visibility. The extra wide hem allows the leg length to be extended for a customised fit. Certified as Class 2 high-visibility clothing.
