Wash:

With ENGEL's SAFETY+ boiler suit, you are effectively protected against chemicals, molten metal, flames and other dangers that you may be exposed to during your working day – due the material's antistatic and flame-retardant properties. The practical covered pockets also ensure that embers cannot get lodged in them. On the front, there is a strap to attach a gas alarm, as well as concealed buttons and zipper. The advantage of wearing a boiler suit is that you and your clothes underneath are effectively protected against dirt as well as dangerous hazards. This boiler suit offers a high degree of comfort, which is important when you have to wear it all day. It is quick to take off and put on, and then it can be tightened at the wrists so that the sleeves stay put.

- High collar for neck protection
- Straps to attach gas alarm at the front
- Concealed zipper and Velcro closure at the front
- Velcro adjustment at the cuffs
